Re: Freedom of Information Law Request

Dear Mr. Blank:

I am writing in response to the portion of your FOIL appeal that FOIL Appeals Officer Judy Fensterman remanded to me for further review concerning redactions of email addresses and telephone numbers. Ms. Fensterman directed me to determine, to the extent possible, whether the redacted information consisted of personal contact information or institutional business contact information.

Consistent with that determination, I re-reviewed the responsive records and removed the redactions to work email addresses and work telephone numbers appearing in the NV5 and Techno RFP responses. Revised copies of those documents are attached. Redactions of home addresses appearing in those responses have been maintained as personal information.

I also re-reviewed the NV5 and Techno contracts, which were the only other documents containing privacy redactions. The only information redacted from those contracts was Federal Employer Identification Numbers (FEINs). I have determined that those redactions should remain in place.

Accordingly, attached please find the revised NV5 and Techno RFP responses reflecting the removal of the business contact-information redactions.

Sincerely,

/s/

Kurt Wintje
Records Access Officer
